Frontend: React.js, Angular 8, HTML5, CSS3, SASS, JavaScript (ES6+), TypeScript

Backend: Node.js, Express.js, REST APIs, MongoDB, Azure SQL Database, SQL Server

Cloud Platforms: AWS S3, Azure

Tools: Git, GitHub, Bitbucket, JIRA, Confluence, NetSuite

Design Tools: Figma, Adobe XD

Others: PowerApps, Microsoft Cognitive Services, SharePoint, Drupal 9

Work Experience

Nexion Automotive Solutions – Navi Mumbai, India

Software Developer | Jan 2023 – May 2023

- Implemented light/dark theme toggling for the admin dashboard across UAT, DEV, and PROD.
- Added multi-language support using Google Translate API, boosting accessibility across global regions.
- Developed navigation layout toggling using React.js and Node.js, improving usability by 20%.
- Built a full-stack CRUD application for efficient data management using React.js and Express.js.

eClerx Services Limited – Navi Mumbai, India

Associate Process Manager | Jul 2022 – Nov 2022

- Developed React.js landing pages for rewards campaigns for a major global financial client.
- Integrated REST APIs to fetch dynamic data and used Hooks for efficient state

management.

- Followed KANBAN methodology to ensure timely delivery across multiple repositories.

Pixacore LLP – Mumbai, India

UI Developer | May 2021 – Jul 2022

- Created responsive UIs from Figma and Adobe XD designs, improving mobile experience by 30%.
- Deployed web projects to AWS S3 environments (DEV, UAT, PROD).
- Worked with NetSuite for project management and Bitbucket for version control across multiple projects in health and pharmaceutical sectors.

HERE Technologies – Navi Mumbai, India

Spatial Data Specialist II | Dec 2017 – Apr 2021

- Developed a real-time registration app using React.js, integrated with SharePoint backend via Google AppScript.
- Built internal content and event management portals using PowerApps and Azure, improving employee engagement for 500+ users.
- Added advanced features like QR code generation, live schedules, and dynamic content updates.
